He made realistic Teaching-Learning process by providing various curricular & co-curricular activities - such as worksheets, classwork, celebration of renowned days, animated content videos and assessment of students’ understanding through online and offline examinations.

CONCLUSION:

We believe that every Year brings changes with God Almighty's protection. As we are passing through an unprecedented crisis situation in the year 2021. we are confident that we will overcome all the odds by our strong will and ethics and pave the way for the betterment of the education fraternity and the society in general.

Before I conclude, let me assure that even though our students engage themselves in various co-curricular and life skill activities, top priority is given to academic performance. Remedial teaching, extra classes, revisions, unit tests, class tests, assignments, project work, end of term exams have kept them busy throughout the year. I render thanks to our Management, our teaching and non-teaching staff and my students and parents who have been with us in all our activities with maximum support and co-operation.

Thank You.
